

CS208 Intelligent Integrated RFID Reader

CS208 is the **first truly INTELLIGENT INTEGRATED Reader in the world with embedded edge server** and a wide selection of connectivity, including GSM/GPRS, SMS, Ethernet, USB and Serial. Just like CS203, CS208 is an **All Weather and MIL-STD-810 Ruggedized** RFID reader with long read range and high read rate. This integrated reader is extremely versatile and can be **Plug & Play deployed** in all environments, mobile or stationary, remote or local, outdoor or indoor. It is can be used in numerous applications, including highway toll station, bus stops, warehouse dock door, forklift mounting, parking lot gate, on-board waste disposal vehicles, school buses, livestock farm, slaughter house, container port, zoos and etc. CS208 is uniquely offered with either left hand or right hand circular polarization, thus allowing it to be deployed in the most extreme dense reader environment – face to face close range deployment.

Product Features

Intelligent Integrated Reader with embedded edge server.
