

Accessories | **Xaminer Elite™**

#### **Xaminer Elite AC Power/Communication Cables**

PN: 1313 (Communications Cable), 10022 (AC Power Supply), 1316 (110 volt Secondary Cable)

The Xaminer Elite series has a three cable AC Power/Communication connection. It is composed of the AC adapter, secondary power cable (110 or 220 volt), and communications cable which provide true AC power to the Xaminer Elite verifier, as well as communication to an optional receipt printer or PC.

#### **Stratix Direct Thermal Printer**

PN: STXTECDTP

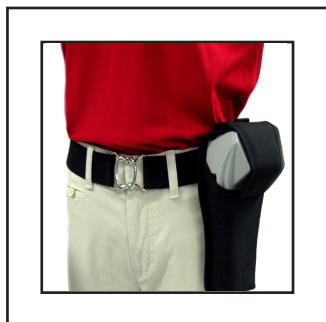

The Stratix Direct Thermal Printer provides quick, on-demand verification reports in a receipt-style fashion. Compact, durable and quiet – this printer will not interrupt your work day. A simple cable connection combined with no ribbon hassle – allows the user to drop in the paper, and you are ready to go. Complete with optional Stratix depot service, reporting has never been easier!

#### **Xaminer Elite Shoulder Harness**

PN: 10038

The Xaminer Elite shoulder harness is made of soft Cordura material and provides the verifier additional protection while in use, as well as the convenience to free the operators hands for multi-tasking. An opening for the keypad, LCD and laser beam is ideal for use of the Xaminer Elite in on-the-go applications. There is an additional pouch for back-up batteries and a Velcro enclosure for an optional wand attachment – the user has all they need for a days work!

#### **Xaminer Elite Belt Holster**

PN: 10039

The Xaminer Elite belt holster provides “at your fingertip” storage for the Elite verifier. Made of the same Cordura material as the shoulder harness, it too serves to help protect the verifier. A Velcro belt loop secures the holster to the operator, and the Velcro flip top provides quick retrieval of the verifier when ready for use.

## Xaminer Elite Accessories

### Xaminer Elite Carry Case

PN: V6158BCS

Functional and attractive, the Xaminer Elite Carry Case provides protective storage for your verifier and accessories when not in use, or on-the-go traveling. Made with a thick foam interior that contains cut-outs for each individual item, your Xaminer Elite accessories will not wiggle in this case! Additional features include an exterior pocket for the user's manual or important documents and a shoulder strap for easy carrying. Business card windows allow personalization.

### Xaminer Elite Can Stand

PN: 10060

Specially designed for verification of cylindrical objects such as aluminum cans, the Xaminer Elite Can Stand contains a drop-in cradle for simple and accurate testing. Constructed of heavy duty metal with brackets for proper placement and security of the Xaminer Elite verifier, this stand will make your life easier! Enhanced with indicator "zones," the can stand eliminates any room for error in your bar code analysis.

### Xaminer Elite Battery Charger

PN: 10034

For optimum performance when portable use is required, Stratix offers a battery charger with 4 AA Ni-MH rechargeable batteries for use with the Xaminer Elite verifier. Two sets of batteries prove to be ideal – one set in the verifier during operation and one set in the charger and ready for use.

### Reference Guides

PN: 1110 (Intro to EAN/UPC Symbol) & 1120 (What to Know about Bar Codes)

Stratix Reference Guides such as Intro to the EAN/UPC Symbol and What to Know about Bar Codes provide valuable information to our verification customers. From bar code types, applications and structural aspects to print methods and ANSI/Traditional grading, these guides will help make you too, a bar code expert!
